ENDURANCE COLOR PALETTE USE

Going Dark

The introduction of the dark “Blackberry” color scheme brings a sense of authority, sleekness, and sophistication, while creating a striking contrast with the vibrant colors of the parent brand. This contrast gives Mealvana | Endurance a high-performance edge, conveying intensity, speed, and focus. It also allows key content to stand out, making important information easier to scan at a glance. In addition, dark mode reduces eye strain in dimly lit environments such as gyms, or during early mornings and late evenings when athletes are preparing for workouts and meal plans.

BLACKBERRY - Rich in antioxidants which reduces muscle soreness

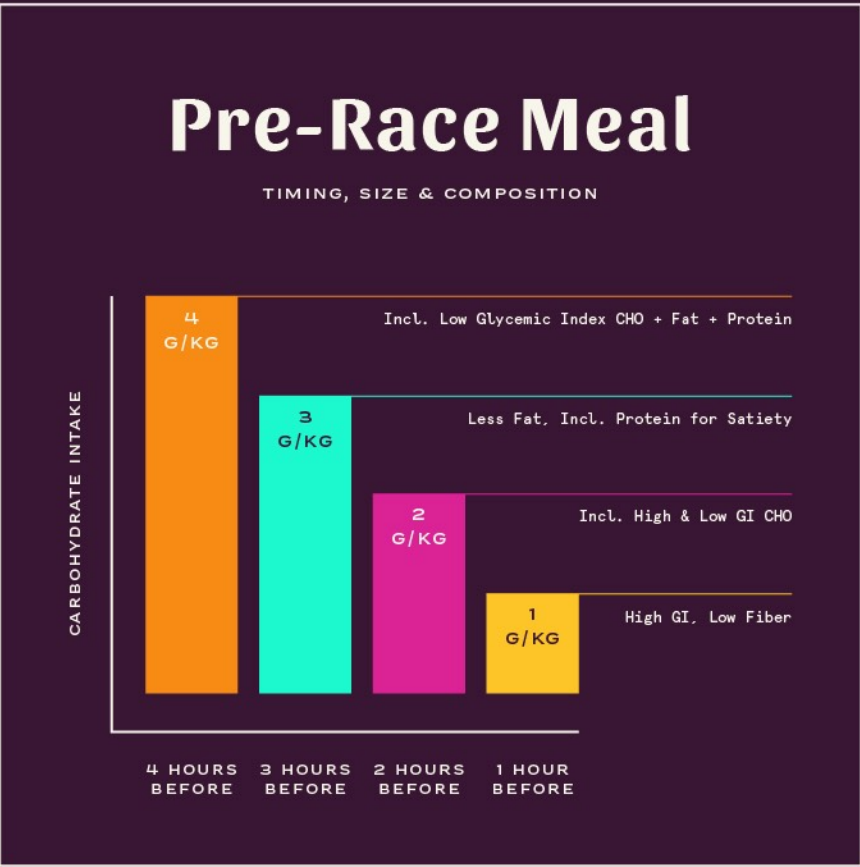

ORANGE - Citrus provides fast, easy fuel before and after exercises

ELECTROLYTES - Helping to regulate muscle function and maintain fluid balance

Put the Pro in Protein

THE BEST

Guacamole

8 LARGE HAAS AVOCADOS

4 VINE-RIPENED TOMATOES

1/2 YELLOW ONION

1 BUNCH OF CILANTRO

4 X SERRANO PEPPERS

1 X LIME

SALT & PEPPER (TO TASTE)

Mix all ingredients in a large bowl, careful not to mush the avocados too much. We want it chunky. Once properly mixed and tested, add the pits into the guacamole and even out the top with a spoon or spatula. Add 1/2 lime to the top later so you cover most of the surface with the juice (The pits and lime will keep it from browning prematurely.) Cover with plastic wrap and refrigerate until served. Please don't make it too early before it's served. We'd love to have it around 5 p.m.
